Week 1 Git and GitHub Assignment

Points possible: 70

URL to GitHub Repository:

Instructions: Follow the steps below to complete this assignment. Add the URL for this week's repository to this document as instructed and submit this document in the LMS when complete.

Assignment Steps:
- • The link below has a zipped file that contains an empty directory (folder) for your assignments. Download the file to your computer and unzip it. This directory (folder) may be utilized to organize projects for this course.

  https://drive.google.com/file/d/1WDc_WJ8I0MfwbrbmtMsxHdTpupZsPjXT/view

2. Following the Git/GitHub tutorial in your week 0 video:

- • Create a directory (folder) for your week 1 assignment.
- • Create a repository on the GitHub website.
- • Push your directory of files to GitHub as instructed in the video.
- • After your first push, please ensure that you make some changes to your directory (folder), such as adding a new file or changing your code. Push those changes to your repository a second time (as shown in the video).

  https://www.youtube.com/watch?v=NGeksLUB1e8

  3. When complete, paste a screenshot of your terminal or command prompt that shows your push was successful.

  4. Copy and paste the URL to your GitHub repository as instructed below.

Screenshot of Terminal / Command Prompt:

```
Last login: Wed Aug 24 10:15:11 on ttys000

The default interactive shell is now zsh.
To update your account to use zsh, please run `chsh -s /bin/zsh`.

Changes to be committed:
  (use "git rm --cached <file>..." to unstage)
        new file:   README.md

Pablos-MacBook-Pro:promineo Angelcruz9$ git commit -m "first commit"
[master (root-commit) 723d8d3] first commit
[ Committer: Pablo Cabrera <Angelcruz9@Pablos-MacBook-Pro.local>
Your name and email address were configured automatically based
on your username and hostname. Please check that they are accurate.
You can suppress this message by setting them explicitly. Run the
following command and follow the instructions in your editor to edit
your configuration file:

    git config --global --edit

After doing this, you may fix the identity used for this commit with:

    git commit --amend --reset-author

 1 file changed, 1 insertion(+)
 create mode 100644 README.md
Pablos-MacBook-Pro:promineo Angelcruz9$ ls
